Safety Data Sheet
Revive Plus

SECTION 1: Product and Company Identification

Product name: Revive Plus
Product use: Plant & Soil Amendment / Soil Conditioner
Product type: Liquid suspension
Manufacturer: JJ Mauget Co
129 Growth Center Dr NE, Floyd, VA 24091
Tel: (540) 551-0403 Fax: (805) 650-8942
Jordan@jjmauget.com
24-Hour Emergency tel: (800) 633-8253 (United States & Canada) (801) 629-0667 (International)

SECTION 2: Hazards Identification

Signal word: Warning
Hazard statement: Harmful if swallowed.
Precautionary statements: Do not swallow. Avoid contact with eyes or skin. Wash thoroughly after handling.
First Aid: If swallowed, rinse mouth and seek medical attention. If in eyes or on skin, rinse thoroughly with water. Remove contact lenses if present and easy to do.
Storage & Disposal: Store in a safe manner. Dispose of product/container in accordance with federal, state, and local regulations.
HMIS Rating: Health = 1 Flammability = 0 Reactivity = 0

SECTION 3: Composition/Information on Ingredients

Component	CAS No.	Concentration
Fish hydrolysate	Mixture / supplier-specific	20%
Molasses	Mixture / supplier-specific	1%
Kelp extract	Mixture / supplier-specific	1%
Yucca-derived ingredient	Mixture / supplier-specific	1%
Water	7732-18-5	Proprietary portion of balance
Humic acid / leonardite-derived material	1415-93-6	Proprietary portion of balance
Micronized biochar	Material / supplier-specific	Proprietary portion of balance

The listed additions total 23%. The balance consists of water, humic acid, and micronized biochar. Exact proportions of these balance components are proprietary/not disclosed.

SECTION 4: First Aid Measures

Inhalation: Remove from source of exposure. Get medical attention if symptoms persist.
Skin contact: Wash thoroughly with soap and water. Get medical attention if irritation persists.
Eye contact: Rinse cautiously with water for at least 15 minutes. Remove contact lenses if present and easy to do. Get medical attention if irritation persists.
Ingestion: Rinse mouth. Do not induce vomiting. Get medical attention.

SECTION 5: Firefighting Measures

Suitable extinguishing media: Water spray, dry chemical, carbon dioxide, or foam.
Special hazards: Product is predominantly aqueous and is not expected to be readily flammable.
Protection for firefighters: Wear protective clothing and equipment appropriate for the surrounding fire.

SECTION 6: Accidental Release Measures

Personal precautions: Wear protective clothing, gloves, and safety eye protection.
Environmental precautions: Avoid uncontrolled discharge into the environment or surface waters.
Containment and cleanup: Contain spills. Collect by pumping, sweeping/absorbing, or other suitable means and place in an appropriate container. Product contains suspended micronized biochar.

SECTION 7: Handling and Storage

Avoid ingestion and unnecessary eye or skin contact. Avoid overheating or freezing. Store in a cool, dry, well-ventilated area away from direct sunlight. Keep containers tightly closed when not in use. Agitate before use as needed to redisperse suspended material.

SECTION 8: Exposure Controls/Personal Protection

Exposure controls: No finished-product occupational exposure limit established. Avoid inhalation of spray mist. Practice good industrial hygiene.
Eye protection: Safety glasses or goggles recommended.
Skin protection: Wear protective clothing and chemical-resistant gloves as appropriate.
Respiratory protection: Normally not required with adequate ventilation; use appropriate protection if excessive mist is generated.

SECTION 9: Physical and Chemical Properties

Appearance	Dark brown to black liquid suspension	Odor	Characteristic organic odor

pH	3.8 - 4.3	Relative density	Not determined
Physical state	Liquid suspension	Solubility	Aqueous phase; biochar dispersed/suspended
Freezing point	Not determined	Boiling point	Not determined
Flash point	Not applicable / not expected readily flammable	Viscosity	Slightly viscous; not determined
Flammability	Non-flammable under normal conditions	Explosive properties	Non-explosive
Oxidizing properties	Non-oxidizer	Settling	Suspended solids may settle; agitate before use

SECTION 10: Stability and Reactivity

Reactivity: No hazardous reactivity expected under normal conditions.
Chemical stability: Stable under recommended storage and handling conditions.
Possibility of hazardous reactions: Hazardous polymerization is not expected.
Conditions to avoid: Excessive heat, freezing, and prolonged exposure to direct sunlight.
Incompatible materials: Strong oxidizing agents and materials known to be incompatible with acidic aqueous formulations.
Hazardous decomposition products: No known hazardous decomposition products under normal storage. Combustion may produce decomposition products typical of organic materials.

SECTION 11: Toxicological Information

Acute toxicity: Harmful if swallowed.
Skin/eye effects: May cause irritation with prolonged or repeated contact.
Corrosivity: Not known to be corrosive under normal use.
Sensitization: No finished-product data available.
Carcinogenicity: No finished-product data available indicating carcinogenicity.
Mutagenicity: No finished-product data available.
Reproductive toxicity: No finished-product data available.

SECTION 12: Ecological Information

Ecotoxicity: No finished-product ecotoxicity data available. Avoid uncontrolled discharge to surface waters.
Persistence and degradability: Not determined.
Bioaccumulative potential: Not determined.
Mobility in soil: Product contains an aqueous phase and suspended organic/carbonaceous material; finished-product mobility has not been determined.

SECTION 13: Disposal Considerations

Dispose of product and container in accordance with applicable federal, state, and local regulations. Do not discharge large quantities to drains or surface waters. Waste classification should be determined at the time of disposal.

SECTION 14: Transport Information

U.S. DOT: Not regulated as hazardous material based on available formulation information.
UN number: Not applicable
UN proper shipping name: Not applicable
Transport hazard class(es): Not applicable
Packing group: Not applicable
IATA: Not dangerous goods based on available formulation information.
IMDG: Not dangerous goods based on available formulation information.

SECTION 15: Regulatory Information

Regulatory requirements may vary by jurisdiction and product use. This product should be reviewed against applicable federal and state fertilizer/soil amendment requirements and chemical reporting requirements. Ingredient-specific reporting obligations depend on the exact composition and supplier classifications.

SECTION 16: Other Information

Revision date: August 11, 2026

DISCLAIMER: The information in this Safety Data Sheet is based on information supplied for the Revive Plus formulation and on the manufacturer's existing Revive SDS. It is intended to describe the product for health, safety, and environmental purposes. It is not a warranty of product properties. Users are responsible for determining suitability and compliance with applicable laws and regulations.
